

ATD Torque Wrench Certification/Warranty Information

CERTIFICATION

The ATD Torque wrenches are certified to have been calibrated prior to shipping to the accuracy of +/- 4% in the right hand direction, and +/- 6% in the left hand direction on readings 20% to 100% of capacity. On readings below 20% of capacity, the accuracy is +/- two scale increments.

LIMITED WARRANTY

If within 90 days from the date of purchase, this wrench fails due to defects in materials or workmanship, we will repair it and recalibrate it free of charge. After 90 days and until one year from date of purchase we will repair any defect in material or workmanship in the torque wrench free of charge. This warranty does not include recalibration. PROOF OF PURCHASE MUST BE INCLUDED WITH EACH REQUEST FOR WARRANTY SERVICE.

REPAIR AND RECALIBRATION SERVICE

All torque wrenches should have periodic accuracy checks and recalibration as required. This should be done at least once a year or every 5,000 torque application cycles, whichever comes first. Recalibration is also recommended after any abnormal handling. For service, send wrench with the attached request for service form and proof of purchase (for warranty units) to:

Angle Repair & Calibration
