SAFETY and GENERAL INFORMATION
Save these instructions. For your safety, read, understand, and follow the information provided with and on this high reach supplementary stand before using. The owner and/or operator of this equipment shall have an understanding of this product and safe operating procedures before attempting to use. The owner and/or operator shall be aware that use of this product may require special skills and knowledge. Special skills and knowledge pertaining to working on, under, and around a vehicle on an automotive lift is required before attempting to position this device. Instructions and safety information shall be conveyed in the operator’s native language before use of this stand is authorized. If any doubt exists as to the safe and proper use of this high reach supplementary stand as outlined in this factory authorized manual, remove from service immediately.

Inspect before each use. Do not use if broken, bent, cracked, or damaged parts (including labels) are noted. Any stand that appears damaged in any way, operates abnormally or is missing parts, shall be removed from service immediately and the manufacturer notified. If you suspect that the stand was subjected to a shock load (a load dropped suddenly, unexpectedly upon it), immediately discontinue use until stand has been checked by a Factory Authorized Service Center (contact distributor or manufacturer for list of Authorized Service Centers). It is recommended that an annual inspection be done by qualified personnel. Labels and owner’s manuals are available from manufacturer.

PRODUCT DESCRIPTION
ATD Tools Under Hoist Tripod Stand is designed to help prevent the tipping/rocking of a vehicle while the vehicle is on an automotive lift. It is to be used in pairs to stabilize a vehicle during service. It is not intended to support the lifted load, only to stabilize the load as work is being performed under a properly secured lift. The rated capacity of this device is intended to be used as a reference of the working load that this stand is capable of sustaining. The working load is NOT increased if used in pairs. The working load of a pair of stands shall not be considered to be more than the rated capacity of a single stand. The rated capacity of this stand is 4000 lbs.

NEVER use high reach supplementary stand to support a vehicle! Use a pair to prevent vehicle tipping/rocking while vehicle is on an automotive lift.

BEFORE USE
1. Inspect stand before each use. Do not use if bent, broken or cracked components are noted. Ensure that all parts move freely.
2. Verify that the product and the application are compatible, if in doubt call for Technical Assistance (888) 332-6419.
3. Before using this product, read the owner’s manual and familiarize yourself thoroughly with the product and hazards associated with its improper use.
4. Always check the vehicle owner’s or service manual for location of proper lift and support points. This device is designed to stabilize, NOT SUPPORT a vehicle while on an automotive lift. Special skills and knowledge pertaining to working on and around an automotive lift may be required before attempting to position/use this device.

WARNING
- Study, understand, and follow all printed materials provided with/on this device before use.
- Do not exceed rated capacity.
- Use only on hard, level surface.
- Center load on saddle.
- Do not use the stand to support a vehicle.
- Use stands in pairs under a properly secured automotive lift to stabilize the vehicle before starting repairs.
- Only attachments and/or adapters supplied by the manufacturer shall be used.
- No alteration shall be made to this device.
- Failure to heed these markings may result in personal injury and/or property damage.
**ASSEMBLY**

Before beginning assembly of product, make sure all parts are present. Compare parts with package contents listed in Figure 1 & Parts List below.

Estimated Assembly Time: 15 minutes

Tools Required for Assembly: 8mm Wrench, Hammer and punch (Not included).

1. Attach lower plate (12) and upper plate (11) to tripod legs (15) using bolts & nuts (9 & 10) provided. Finger tighten only. Make sure both plates are placed above the screw hole.
2. Attach lower and upper links (14 & 16) using bolts and nuts (9 & 10) provided. Do not use any tools to tighten.
3. Insert threaded column (13) into column tube (7).
4. Insert bearing (6) and height adjustment handle (4) into threaded column (13).
5. Attach saddle (2) on top of the threaded column (13) and use a hammer to punch the pin (3) into the threaded column.
6. Insert the assembly of steps 4 and 5 through the upper plate (11).
7. Insert the lock pin (8) to the bottom of the tube (7).
8. Tighten securely all the bolts and nuts.

**OPERATION**

⚠️ Use only on areas of the vehicle as specified by the vehicle manufacturer. Use ONLY on vehicles whose contact points are compatible with the saddles of these stands. Incompatibility may result in structural damage to the vehicle and/or stand. Structural damage to either may result in sudden and unexpected loss of load height!

To Raise Saddle

1. Refer to the vehicle service manual or vehicle manufacturer for location of proper lift and support points. This device is designed to stabilize, NOT SUPPORT a vehicle while on an automotive lift.

   Special skills and knowledge pertaining to working on, under, and around a vehicle on an automotive lift is required before attempting to position/use this device.

2. Locate and turn the height adjustment handle clockwise.

To Lower Saddle

⚠️ Be sure all tools and personnel are clear before lowering load.

Slowly turn height adjustment handle counter-clockwise. Ensure vehicle is balanced and secure on the vehicle lift before removing this device.

MAINTENANCE
Periodically inspect each stand. Ensure all parts move freely. Apply grease to fitting as needed. If rust appears, sand affected area and cover with suitable utility paint.

REPLACEMENT PARTS
(Refer to Figure 1 & Parts List on Page 3)
Not all components of the stand are replacement items, but are illustrated as a convenient reference of location and position in the assembly sequence. When ordering parts, give model number, part number and description below. Call your distributor for current pricing.

ONE YEAR LIMITED WARRANTY
For a period of one (1) year from date of purchase, ATD Tools, Inc. will repair or replace, at its option, without charge, any of its products which fails due to a defect in material or workmanship, or which fails to conform to any implied warranty not excluded hereby.

Performance of any obligation under this warranty may be obtained by contacting your distributor or point of sale for further instructions. Please retain your proof of purchase, as it will be needed for any claim.

Except where such limitations and exclusions are specifically prohibited by applicable law, (1) the CONSUMER'S SOLE AND EXCLUSIVE REMEDY SHALL BE THE REPAIR OR REPLACEMENT OF DEFECTIVE PRODUCTS AS DESCRIBED ABOVE, and (2) ATD Tools, Inc. SHALL NOT BE LIABLE FOR ANY CONSEQUENTIAL OR INCIDENTAL DAMAGE OR LOSS WHATSOEVER, and (3) THE DURATION OF ANY AND ALL EXPRESSED AND IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION, ANY WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, IS LIMITED TO A PERIOD OF ONE (1) YEAR FROM DATE OF PURCHASE.

Some states do not allow limitations on how long an implied warranty lasts, so the above limitation may not apply to you. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.
