- Leg tube length: 30.7"
- Bent tube length: 40.35"
- Steel tubing diameter: 1.25"
- Steel tubing thickness: .08"
- Shipping Weight: 23.8 lbs.

# Assembly Instructions For Work Stand

- 1) Slide the foam padding (#8) onto the bent tube (#9).  
Slip a tube leg (#6) into the bent tube (#9). Line up the holes in the bent tube and the leg tubes and insert the eyebolt with chain attached (#4) to secure them.
  
- 2) Assemble the second bent tube the same way as above, but use the hook bolt (#2) to secure the leg tube and the bent tube.
  
- 3) Complete the assembly by placing one of the assembled tubes on top of the other. Line up the holes and secure with the M8x80 pivot bolts (#3). Be sure to place a flat washer (#5) outside, between and inside the tubing assemblies.  
Use M8 nuts (#1) to tighten the pivot bolts (#3). Then push on tube ends (#7).
