Cautions:

- Do NOT service this light while it is plugged in. It may cause electrical shock.
- Repairs should only be done by a qualified technician. To prevent shock and other injuries.
- Keep light out of reach of children. To prevent accidental shock or injury.
- Do NOT submerge in water. – It may cause electrical shock and/or fires. To clean, wipe with damp cloth only, do not use solvents, and clean only when the unit is unplugged from power source.
- Do NOT use this lamp in explosive atmosphere – Near flammable liquids or where explosion proof lamps are required.
- The warnings, cautions, and instructions discussed in this instruction manual cannot cover all possible conditions and situations that may occur. It must be understood by the operator that common sense and caution are factors which cannot be built into this product, but must be supplied by the operator.

To Change Bulbs:

Push each side of the upper portion of the rubber ring aside until the edge of the cover appears, leaving the lower portion of the rubber ring remain snapped on the lamp body. Insert a screwdriver into one side of the lamp body to lift the cover.

Pull the bulb out of the lamp holder and the bracket, and install the new bulb. Insert the cover into one side of rubber ring, then use a screwdriver to slide the upper portion of the rubber ring to the original position one side at a time.

Ensure that the rubber ring has wrapped the cover entirely, and that there are no concave, convex or turned up points.
