

NEW PRODUCT ANNOUNCEMENT

AVAILABLE NOVEMBER 1, 2025

ATD-15287 HAND OPERATED GREASE PUMP WITH BUCKET

Features:

- For efficient and high-volume greasing in various applications
- Designed for tasks such as lubricating automotive components, agricultural machinery, excavators and earth-moving equipment
- Variable handle settings allow user to switch between high volume and high-pressure
- High Pressure: 4,000 psi, 4 GM/ Stroke
- High Volume: 2,000 psi, 9 GM/ Stroke
- Works well with NLGI 1, 2, and 3 greases, making it suitable for different viscosity requirements
- Pistol-grip handle with steel extension and coupler
- Swivel connector provides easy maneuverability of hose without kinking
- Air bleeder valve easily removes trapped air
- High-pressure rubber hose: 6' x 1/4"
- Bucket capacity: 33 lbs.
