## ATD-43705

### 5-PC. 1/2" DRIVE TORQUE EXTENSION

**Features:**

- Used by professionals to apply torque to correct tolerance
- Prevents over-tightening of wheel lug nuts, distortion of wheels, drums and rotors
- Once the maximum torque is reached, the extension flexes to absorb any further force and prevents over-tightening
- Both ends are 1/2" drive, making it compatible with sockets and impact wrenches, even those with an extended anvil
- Manufactured from durable & resilient powder-coated chrome molybdenum steel
- Color-coded bars are engraved with torque range for quick and easy identification
- Comes in a blow molded case

**Specifications:**

- Drive Size: 1/2"
